

Intonation

Intonation is how your voice goes up and down when you speak.

Intonation can be used to show emotion.

Pretend you are on a ship, chasing pirates! Your ship needs to go faster.

- Would you sound calm or excited?
- Write down on your Worksheet what you would tell the captain.

- Is it clear **how** to say what you have written?
- Is there any way to make it sound more exciting?

Turn to page 2. Look at the pirate who is missing his parrot.

- How does the punctuation change how you say his words?
- Does it sound different to what these parrots are saying?

ARR!
Where's **my**
pirate?

Arr?
Where's my
pirate?

- Write your thoughts down on your Worksheet to share with your teacher.

Think of when you might say things in a different way in real life.

ASKING ALL AGENTS!

Why is it helpful to change how you say things in real life?

Why is it important to use intonation to show meaning in text?
