

Intonation

Intonation is how your voice goes up and down when you speak.

Intonation can be used to show emotion.

Think about the different ways you speak to people.

- How would you change the way you speak when talking to:
 - A baby
 - A dog
 - An elderly person
 - A friend
 - Your parents
 - Your teacher
 - A waiter/waitress
 - Someone far away
- Choose two to write about on your Worksheet to show to your teacher.

Reread chapter 2. Think about your intonation as you read.

- Why would the old man sound different to the rabbit?
- How would the narrator sound different to the characters?
- Write your thoughts down on your Worksheet to share with your teacher.
